Education

Indian Institute of Technology, Jodhpur

Oct 2022 – May 2026

B.Tech. in Chemical Engineering - CGPA: 8.18

Jodhpur, Rajasthan

LeMiCi IQ

Jul 2025 – Present

Data Analytics Intern — Data Analyst

Remote

- **Developed 30+ interactive Power BI dashboards** to visualize business KPIs and provide actionable insights for stakeholders.
- **Analyzed datasets and built BI solutions** using Power BI, SQL, and data visualization techniques to support decision-making.
- **Integrated dashboards into web-based platforms** to improve accessibility and enable interactive data exploration.

Projects

Pizza Sales Analysis Dashboard ○ | *Self Project*

- **Built** an interactive Power BI dashboard using MySQL to analyze **21K+ orders**, **49K+ pizzas sold**, revenue trends, and customer purchasing patterns.
- **Designed** KPI cards and visualizations to identify top/bottom-selling pizzas, category-wise sales, and size-wise revenue for business decision-making.

HR Analytics Dashboard ○ | *Self Project*

- **Developed** an interactive HR Analytics Dashboard in Power BI to monitor workforce KPIs including attrition, gender distribution, and employee performance.
- **Applied** Power Query for data cleaning and DAX measures to generate actionable HR insights through interactive visualizations.

Health Insurance Premium Prediction ○ | *Self Project*

- **Developed** a Random Forest Regression model to predict health insurance charges using demographic and lifestyle features including age, BMI, smoking status, and region.
- **Performed** exploratory data analysis and evaluated model performance with an **R² score of 0.84**, achieving reliable premium predictions.

Stock Price Prediction Model ○ | *Self Project*

- **Built** an LSTM-based stock price prediction model in TensorFlow using **5+ years of Apple historical stock data**.
- **Implemented** data preprocessing, sequence generation, and model evaluation, achieving an **RMSE of 4.68** on test data.

Technical Skills

Programming Languages: Python, C/C++, R

Data Analytics Skills: SQL, MySQL, Power BI, Excel, Power Query, DAX

ML/AI Libraries: NumPy, Pandas, scikit-learn, Matplotlib, Plotly

Tools & Platforms: VS Code, Jupyter Notebook, Git, GitHub

Data Analytics Concepts: Data Analysis, Data Visualization, Statistical Modeling

Relevant Coursework

- | | | | |
|--------------------|----------------------------|---------------------------|-------------------------|
| • Machine Learning | • Data Visualization | • Scientific Computations | • Linear Algebra |
| • Data Structures | • Probability & Statistics | • Signals and Systems | • Differential Equation |

Achievements

- Secured Department Rank 7 in B.Tech Chemical Engineering at IIT Jodhpur.
- Won 1st Prize in the Debate Competition at Industry Day 2024, IIT Jodhpur.
- Earned an A Grade in Probability, Statistics, and Stochastic Processes.

Positions of Responsibility

- Class Committee Member @ Department of Chemical Engineering
- Core Member @ Frame-X
