Education

Indian Institute of Technology, Jodhpur

B.Tech. in Chemical Engineering - CGPA: 8.18

Oct. 2022 – May 2026

Jodhpur, Rajasthan

Experience

LeMiCi IQ

Data Analytics Intern

Remote

July'25 – May'26

- **Designed and developed 30+ interactive dashboards** using **Power BI** to visualize operational and business KPIs for stakeholder reporting.
- Integrated dashboards into a web-based interface, enabling real-time data exploration and improving accessibility for cross-functional teams.
- **Analyzed** large datasets to identify trends, anomalies, and actionable insights that supported data-driven decision-making.

Projects

HR Analytics Dashboard 🐙 | *Self Project*

- **Developed** an interactive HR Analytics Dashboard in Power BI to visualize key workforce KPIs across multiple departments and employee records.
- **Applied** 10+ Power Query transformations to clean, merge, and prepare workforce data for analysis.
- **Incorporated** various DAX measures to compute HR metrics such as attrition rate, gender ratio, and average training hours.

E-Commerce Store Analysis 🐙 | *Self Project*

- **Built** an interactive E-commerce Sales Dashboard in Power BI to analyze sales performance, order trends, and customer behavior.
- **Applied** 8+ Power Query transformations for efficient data cleaning, integration, and preparation of sales datasets.
- **Incorporated** slicers and KPI cards to improve user engagement and enable personalized reporting views.

Stock Price Prediction Model 🐙 | *Self Project*

- **Built and trained** an LSTM-based stock price prediction model in TensorFlow using **5+ years of Apple historical data (1,200+ trading days)** to forecast closing prices.
- **Implemented** a preprocessing pipeline with sequence generation, MinMax scaling, and time-series train-test splitting.
- **Evaluated** model performance with an **MSE of 21.9** and **RMSE of 4.68**, demonstrating reliable prediction accuracy when comparing projected vs. actual stock prices.

Technical Skills

Programming Languages: Python, C/C++, R

Data Analytics Skills: Power BI, SQL, Excel

ML/AI Libraries: NumPy, Pandas, scikit-learn, Matplotlib

Tools & Platforms: Jupyter, Git, GitHub

Analytical Skills: Data Analysis, Statistical Modeling

Relevant Coursework

- | | | | |
|--------------------|----------------------------|---------------------------|-------------------------|
| • Machine Learning | • Data Visualization | • Scientific Computations | • Linear Algebra |
| • Data Structures | • Probability & Statistics | • Signals and Systems | • Differential Equation |

Achievements

- Secured Department Rank 7 in B.Tech Chemical Engineering at IIT Jodhpur.
- Won 1st Prize in the Debate Competition at Industry Day 2024, IIT Jodhpur.
- Earned an A Grade in Probability, Statistics, and Stochastic Processes.

Positions of Responsibility

- Class Committee Member @ Department of Chemical Engineering
- Core Member @ Frame-X
